

Efe Glass, cam sanatına gönül verenlerin birlikteliğiyle 1991 yılında kurulmuştur. Günlük 22 ton üretim kapasitesi ve 10.000 m² kapalı üretim tesisi ve 300 çalışanı ile İstanbul Küçükköyde faaliyet gösteren Efe Glass, kurulum sürecinden bu yana, cam nesneleri oluşturmak için malzeme, tasarım ve ar - ge çalışmalarını birleştirerek ortaya koyduğu aydınlatma ve züccaciye camları üretimiyle cam sanatına yön veren lider firmalar arasında kendisine yer bulmuştur. Üretimde Uluslar arası standartlar ve kalite prensibi ile çalışan efe glass, ürünlerinde kaliteli hammadde, yüksek teknoloji üretim makineleri, profesyonel yetişmiş insan gücü ile hizmet vermektedir. Yılların verdiği deneyim ve birikimi ile kaliteli ürünler üretmeyi ilke edinen Efe Glass her gün bu tutkuyla çalışmaya cam tutkusunu hayata geçirmede; savurma, pres, şiler ve üfleme gruplarıyla üretim yapmaya devam etmektedir.

Bu aşkla üretilen aydınlatma ve züccaciye ürünleri bugün Avrupa ve Amerika başta olmak üzere dünya 'nın bir çok ülkesindeki seçkin mağazaların raflarını süsleyen Efe glass aydınlatma grubunda tekli cam, masa lambası, armatür, avize camları ile geniş bir yelpaze sunmakta. Züccaciye grubunda ise; banyo cam aksesuarları, masaüstü ve moda ve günlük trendlere uygun ürünlerle müşterilerinin karşısına çıkmaktadır. Efe glass insan ve tasarım odaklı ürünlerinin gördüğü ilgi bu gün yurt içinde başta Toki ve Kiptaş olmak üzere bir çok büyük toplu konut projelerinde kullanılmaktadır. Züccaciye grubu ve aydınlatma grubu ürünlerinin üretimi yanı sıra özel projeler ile de ilgilenen efe glass ürün ve hizmet kalitesiyle talepler doğrultusunda üretim gerçekleştirebilmektedir. Bu talepler için büyük bir proje ekibi ile bu alanda hizmet veren efe glass proje keşfi danışmanlık doğru ürün seçimi ve kalıp oluşturulması konusunda daima müşterilerinin yanında olmuştur.

Cam yapımındaki en önemli unsurlardan biri saydamlıktır. Bu unsur belki de hiçbir malzeme için bu kadar önem taşımaz. Çünkü cam saydamlığı nedeniyle diğer malzemeler kadar görünmez. Cam sanatını; istek, düşünce ve hayal dünyasıyla birleştirerek camın tekniğine uyarak anlatmak Efe Glass' ı bu sanata en çok bağlayan etkidir. Üretici firma olma avantajını müşterilerinin talepleriyle beraber cam sanatında uygulama fırsatı bulan Efe Glass 'ın üretim üssünde, sanattan aşka, ateşten alınterine ve beş duyunun hassas dokunuşları ile üretiliyor ürünler. Ateşe tutulan bir nefesle hayallerin gerçekleştiği saydam camlar ve usta ellerde hayat bulan ürünler. Bu günün ihtiyacı kültür ve geleceğimizin eserlerine her gün bir yenisi eklemek için ateşe aşkla dokunuyor burada sanatçı ruhlar.

Hayatımızda var olmak için bir çok aşamadan geçiyor burada cam. Burada hayat bulup üretimden paketlemeye kadar tüm süreçler kalite prensibi ve müşteri memnuniyeti ilkesi ile yönetilip raflardaki yerini alıyor. Bir tutkuyla başlayan bu yolculukta ateşle sanatla ve aşkla cama ruh veren ve Camın Efendisi sloganı ile bu yolculuğuna devam eden Efe Glass çevresel ve sosyal sorumluluk bilinciyle sektöründe büyümeye dünya cam kültürüne açık yeni eserler kazandırmaya devam edecektir.

Company

Efe Glass was established in 1991 with the association of those who set their heart on the art of glass. Efe Glass operates in Kucukkoy, Istanbul with 22 tons of daily production capacity, 10.000 square meters of indoor production capacity and 300 employees; and since its establishment, it has made its place among the most prominent companies leading the art of glass, with its production of illuminating glasses and glassware by combining material, design and R&D works to create glass objects. Working with international standards and principle of quality in production, Efe Glass provides services with quality raw material, high technology production machines and professionally trained manpower. Adopting the production of quality products with the years of experience and knowledge as a principle, Efe Glass continues working with this passion and accomplishing its passion for glass with the spinning, pressing, Schiller and mouth blown groups.

The illumination and glassware products manufactured with this love by Efe Glass decorates the shelves of many elite stores in many countries around the world, especially in Europe and America today; furthermore, it offers a wide range of products such as single glass, table lamp, armature, chandelier glasses. The glassware product group contains the glass accessories for the bathroom, and table top products in accordance with the fashion and daily trends of the customers. The products of Efe Glass, which attract attention due to its human and design focused production, are used in many widescale multi-housing projects, which especially contain TOKI and KIPTAS projects within the country.

In addition to the production of the glassware group and illumination group, Efe Glass is also engaged in customized projects, and manufactures with its high product and service quality according to the demands. The project analysis and consulting team of Efe Glass that serves in this field to meet such demands has always been there for the customers to ensure right product selection and mould formation.

Transparency is one of the most important factors in the glasswork. It is possible that this factor is not as much as important for other materials, as it is for the glass; because the glass is not as much apparent as the other materials due to its transparency. Explaining the art of glass by combining the world of dreams and ideas and by following the glass technique is the element that attaches Efe Glass to this art the most. As it is a producing company, Efe Glass has a great advantage to integrate the customer demands into the art of glass; the products which are manufactured in the production base of Efe Glass through many factors from art to love, from fire to elbow grease, and through the sensitive touches of 5 senses are the transparent glasses created by the combination of fire and breath in which the dreams come true, and the objects that come to life in skilled hands. The artist souls are touching fire with love to add another new piece to the culture and future artworks here. The glass goes through many phases in order to exist in our lives here. The glass comes to life here, and takes its place on the shelves under the principles of quality and customer satisfaction at all phases from production to the packaging. Setting off with a passion, and continues its journey with the motto of "The Master of Glass", Efe Glass that ensouls the glass through fire, art and love will keep growing in the sector with the Environmental Awareness and Social Responsibility, and contributing to the world's glass culture with new artworks.
